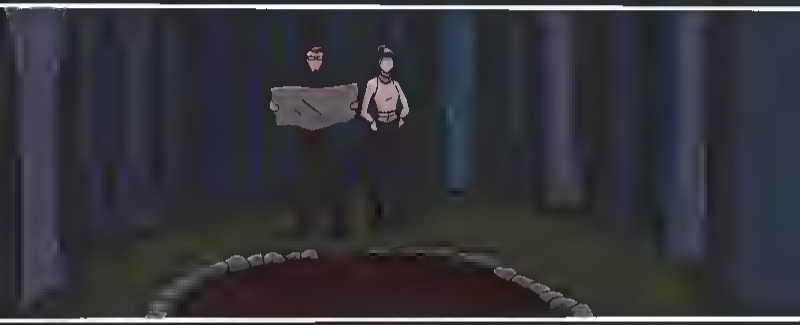
Episode 16

Well...



...we're here

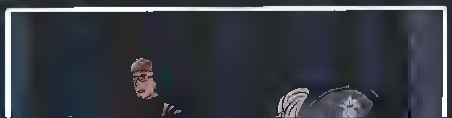
What do you think happened

to this grass?
Camp fire?

Y-yeah, maybe.

Not seeing any of those crystals around, though.

And I've been here thousands of times—



That's because they're not here.

Excuse me. what??

This way.

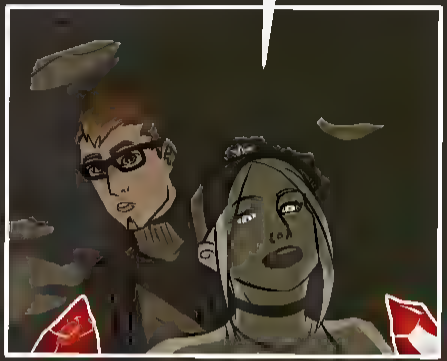
Ah, see this makes more sense.
Follow me, watch your head.

Keep close, it's pretty dark.

It's cool, I've got good night vision.

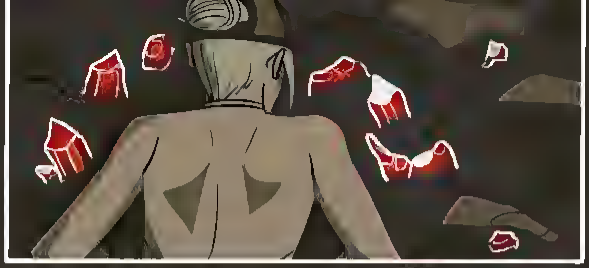
Oh, hey!

Demonvein!



Is *that* what it's called?

Yeah, I - uh -



...used to know someone who was obsessed with rare crystals.

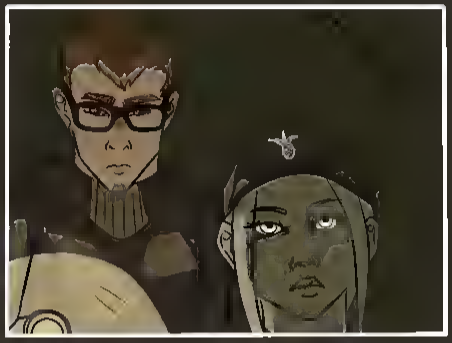
I bet he'd kill to get his hands on these...

But anyways...

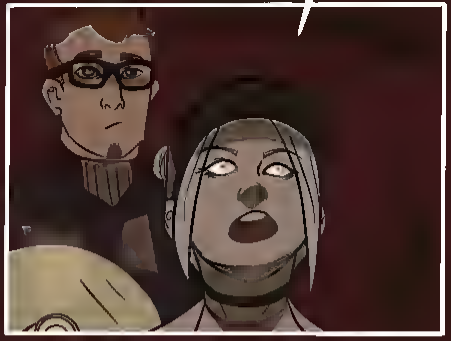
How much further...?

J-just a bit more...

Cool, let's go.

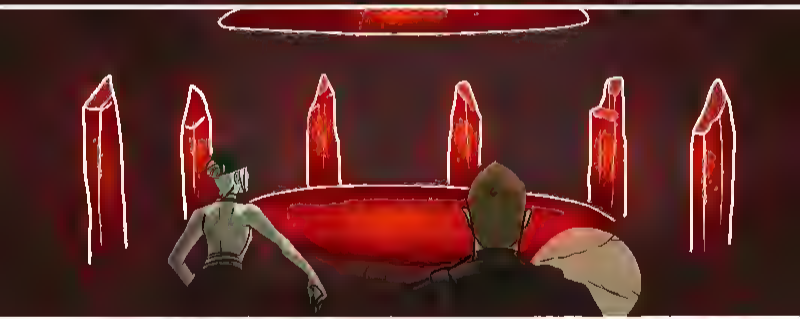


WOAH - !



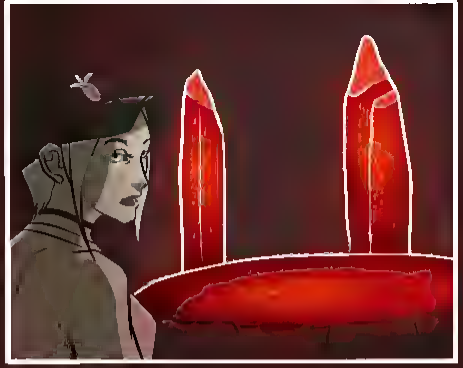
You're joking, right??

How did you even *find* this?



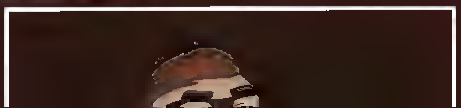
I was just sorta using an EMF reader to map laylines and saw that most of them converged here...

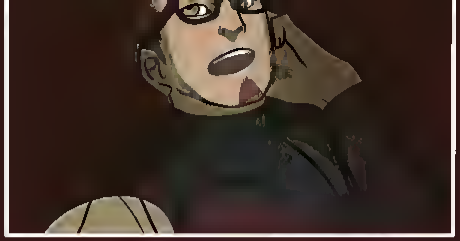
What do you think this is, exactly?



Ah, well I have this book that kinda describes something like this...

But I'm still not sure...

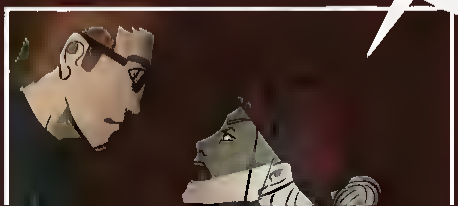




Hey, Kieran.

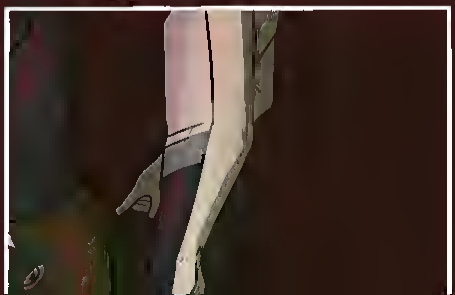
Let's be straight with each other, yeah?

We both know you didn't invite me here to try to get in my pants...



...We both know that's a hagstone in your pocket...

...'Cause you sure as shit ain't *that* happy to see me



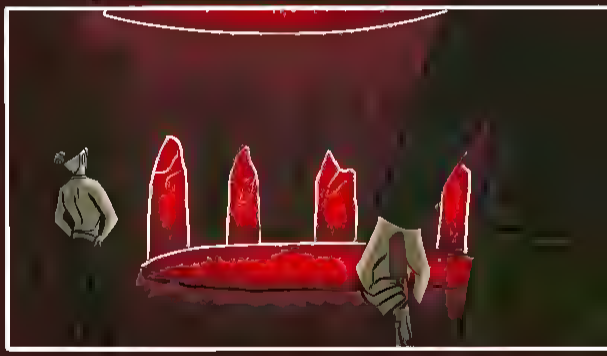
Which leads me to conclude that you know perfectly well what this is and what I am.

And you're planning on using me for it.

Am I wrong?

And if you're not?

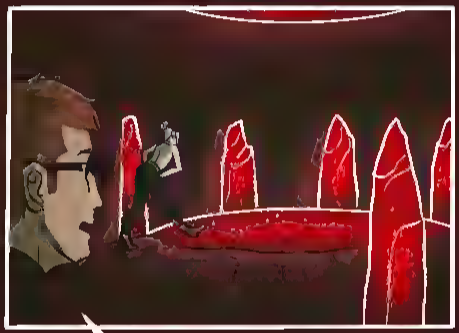
Relax, I'll help you. This could be mutually beneficial



So you can put that knife of yours away

Oh, yes.
This is exactly what I've been looking for.

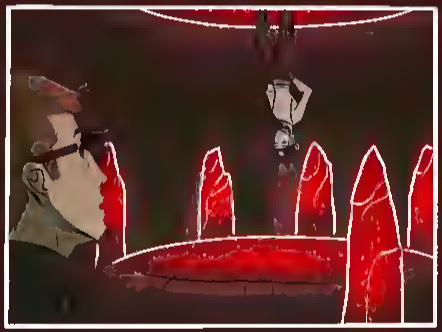
Have you stepped on it yet -



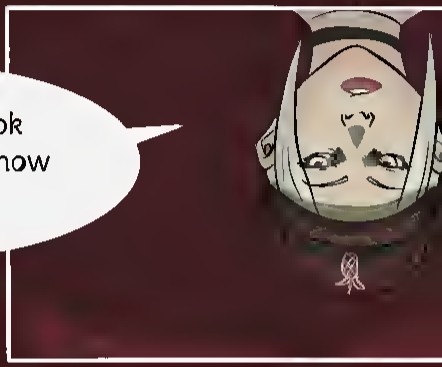
No? Wait -

It's cool, the gravity's just reversed.

That means it still works. Great.

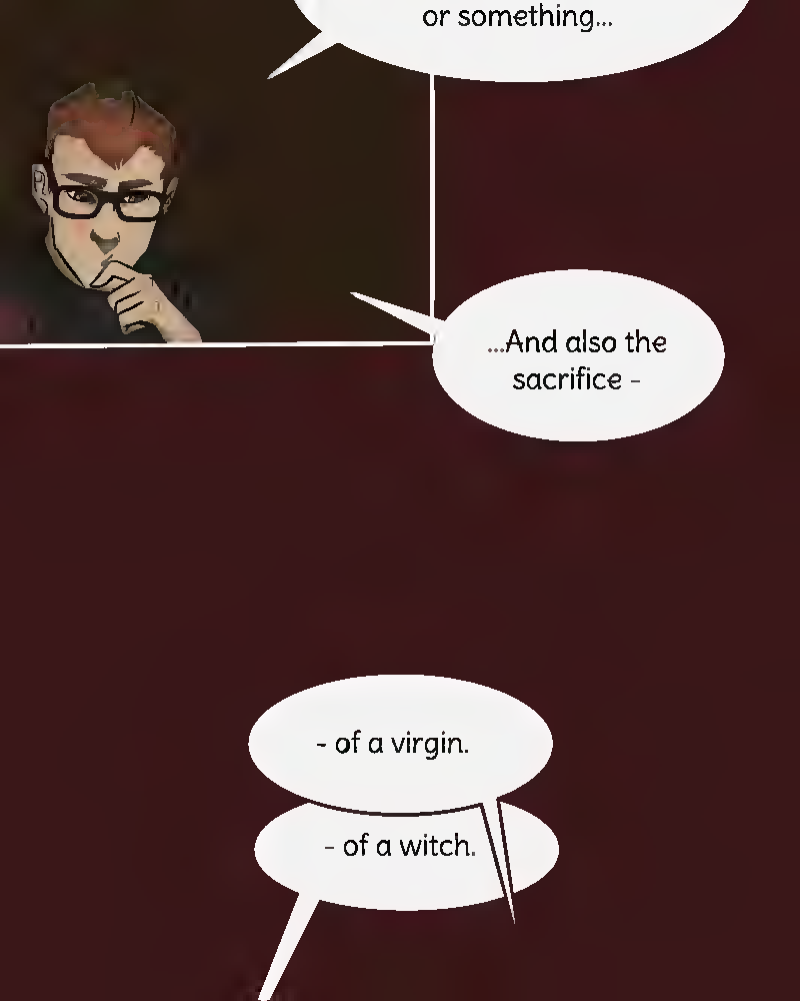


...

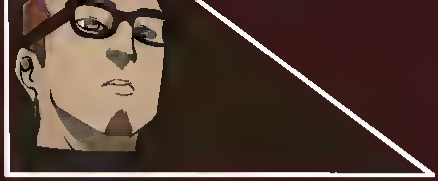


So does that book of yours mention how to activate it?

It says something about planetary alignments



or something...
...And also the sacrifice -
- of a virgin.
- of a witch.



Well now, seems we can both help each other out.

What're you -

That's why I've been hanging around you...

...So I can use you...

...To get to Trevor holy shit how is he so hard to get alone to kidnap??

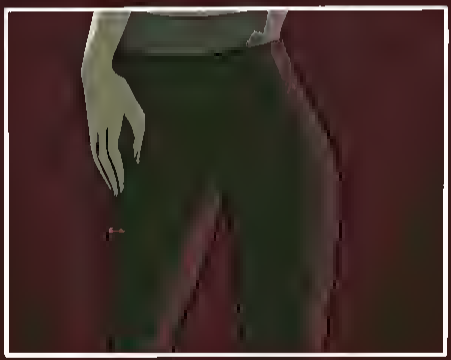
Dean told Iri "the one with the glasses is a virgin", and it's the only lead I have so far, so...

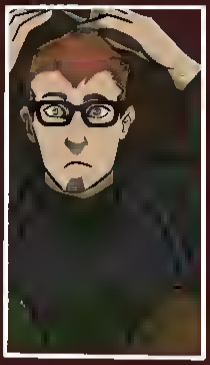
That's what you've been doing??

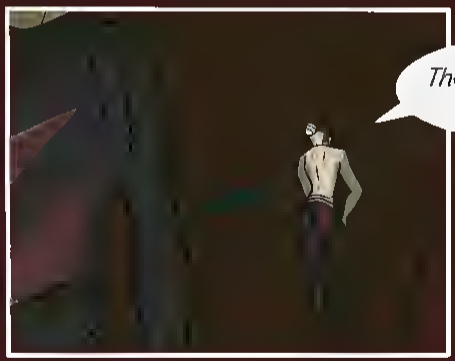
Thank God Dean never bothered to learn our names.

Oh, hell.
My leg's bleeding.

Damn sharp rocks.







These leggins were new, too...

Shhaaa

So the planets are important, huh?

What're you doing? Let's go. I know someone that might know more.

Coming.

Aight. Well I'll

let you know how it goes -

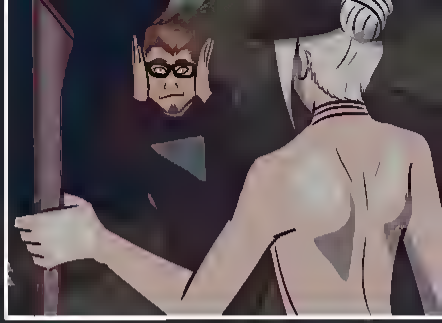
I'm going with you.

I don't think you get it, it s dangerous for humans.

I'm going.
I found this
place and I have
the book.

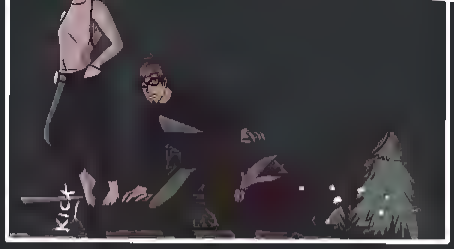
Fine, but I warned you.

Also, we're not walking there



Please try to be cool

I suggest sitting side-saddle so you don't rack yourself



KICK

Hold on.

AAAAAAHHHHHHHHHHH

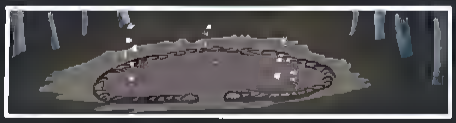
Well, this is where the map pointed to.

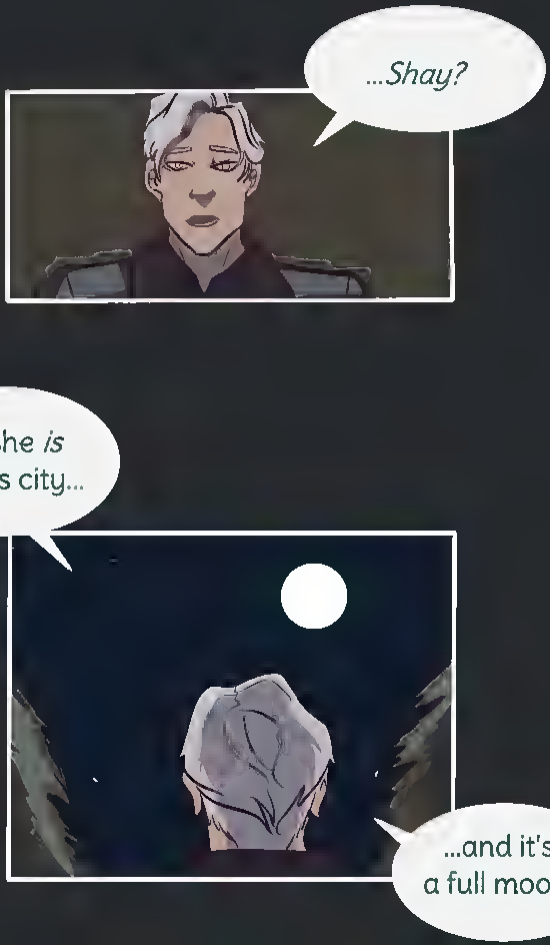
There's only

someone's old ritual circle, though

Let's see who was careless enough to leave this

Shards...





...Shay?
So she *is* in this city...
...and it's a full moon.

There's only
one place she'll be.
